

Notice to all Paramedics in the Lord Fairfax EMS Council region: With the upcoming implementation of the new protocols, all Paramedics are required to attend a surgical cricothyrotomy training. Nine training dates will be held throughout the region in August. Any paramedic that does not attend a training will not have the authority to practice this skill. Upon completion of the training, a completion form will be filed in the provider's file at the Council office. To register, contact the appropriate jurisdictional Coordinator. [Click here for the calendar of training dates.](#)
